**Subject: Florida House District 36 Special Election survey, conducted for SaintPetersBlog.com**

**Date: September 30, 2013**

**Executive Summary:**

This poll of 310 Florida House District 36 likely voters was conducted on Monday, September 30, 2013. This poll used the registered voter lists supplied by the state of Florida as of September 3rd, 2013. The sample of voters that were called included random samples of registered voters within the boundaries of the 36<sup>th</sup> State House District of Florida.

The issues surveyed included questions related to the special election.

**Methodology:**

The poll was conducted by an automated phone call polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the estimated voting population for the Florida State House District 36 special election. The demographics used were: political party, race and age.

The voters polled were chosen at random within the registered voter population within Florida State House District 36. Only voters that answered that they were planning on voting in the special election are included in these results.

The scientific results shown in the summary below have a sample size of 310 respondents and a Margin of Error of 5.6% at a 95% confidence level.
