**Subject: City of St. Petersburg 2013 general election survey, conducted for SaintPetersBlog.com**

**Date: October 14, 2013**

**Executive Summary:**

This poll of 919 City of St. Petersburg, Florida early and likely voters was conducted on Monday, October 14, 2013. This poll used the registered voter lists supplied by the state of Florida as of October 3rd, 2013. The sample of voters that were called included random samples of registered voters within the boundaries of the city of St. Petersburg, Florida.

The issues surveyed included the four City Council races and the race for Mayor on the November 5<sup>th</sup> general election ballot.

**Methodology:**

The poll was conducted by an automated phone call polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the recent active voter population within the City of St. Petersburg, Florida. The demographics used were: party, race and age.

The voters polled were chosen at random within the registered voter population within the City of St. Petersburg, Florida. Only if the respondent selected that they had already voted or were planning to vote in the upcoming election were they asked the questions in this poll.

The scientific results shown in the TOTAL column below have a sample size of 919 respondents and a Margin of Error of 3.2% at a 95% confidence level.

The scientific results shown in the EARLY column below have a sample size of 277 respondents and a Margin of Error of 5.9% at a 95% confidence level.

The scientific results shown in the LIKELY column below have a sample size of 642 respondents and a Margin of Error of 3.9% at a 95% confidence level.
