Subject:

Florida Statewide Republican Primary Election survey conducted for FloridaPolitics.com

Date: July 15, 2015

Executive Summary:

This poll of 1,074 Florida likely Republican primary voters was conducted on Wednesday, July 15, 2015. This poll used the registered voter lists supplied by the state of Florida as of June 18, 2015. The sample of voters that were contacted included random samples of registered Republican voters within the boundaries of the state of Florida.

The issues surveyed included questions related to the 2016 Republican Florida primary election.

Methodology:

The poll was conducted through an automated phone call polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the active Republican primary election voter population for the state of Florida. The weighting demographics used were: race, age, gender and media market.

The voters polled were chosen at random within the registered voter population within the state of Florida. The random sample used was made up of a proportional sampling of registered Republican party voters from every one of Florida's 120 State House districts.

The scientific results shown for the questions below have a sample size of 1,074 and a 3.0% Margin of Error at a 95% confidence level.
