Matt Florell, President

**Subject: Florida Congressional District 13 survey conducted for
FloridaPolitics.com**

Date: July 9, 2020

Executive Summary:

This poll of 558 likely Republican Florida Congressional District 13 voters was conducted on July 9th, 2020. This poll used the registered voter lists supplied by the state of Florida as of June 9th, 2020. The sample of voters that were contacted included random samples of registered voters within the boundaries of Florida's 13th Congressional District.

The issues surveyed included questions related to the Republican primary election in Florida's 13th Congressional District.

Methodology:

The poll was conducted through an automated phone call polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the active Republican voter population for Florida's 13th Congressional District. The weighting demographics used were: race, age and gender.

Only voters who had stated that they were likely to vote in the August 2020 primary election were included in the results.

The scientific results shown for the questions below have a sample size of 558 and a 4.1% Margin of Error at a 95% confidence level.
