**Subject: Florida Statewide survey conducted for FloridaPolitics.com**

**Date: September 22, 2020**

**Executive Summary:**

This poll of 2,906 likely Florida voters was conducted from September 21 to September 22, 2020. This poll used the registered voter lists supplied by the state of Florida as of August 4<sup>th</sup> 2020. The sample of voters that were contacted included random samples of registered voters within the boundaries of the state of Florida.

The issues surveyed included questions related to the 2020 General Election in Florida.

**Methodology:**

The poll was conducted through an automated phone call polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the active voter population for the state of Florida. The weighting demographics used were: political party, race, age, gender and media market.

Respondents who stated they were not likely to vote in the election were excluded from the results.

The scientific results shown for the questions below have a sample size of 2,906 and a 1.8% Margin of Error at a 95% confidence level.
