Subject: Florida Statewide survey conducted for FloridaPolitics.com

Date: May 26, 2021

Executive Summary:

This poll of 2,752 Florida Democratic party voters was conducted from May 24 to May 26, 2021. This poll used the registered voter lists supplied by the state of Florida as of February 9th 2021. The sample of voters that were contacted included random samples of registered voters within the boundaries of the state of Florida.

The issues surveyed included questions related to the 2022 Florida statewide elections.

Methodology:

The poll was conducted through an automated phone call polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the active Democratic Party Primary voter population for the state of Florida.

The scientific results shown for the questions below have a sample size of 2,752 and a 1.9% Margin of Error at a 95% confidence level.
