**Subject: Florida U.S. Congressional District 13 survey conducted for  
FloridaPolitics.com**

**Date: October 27, 2022**

**Executive Summary:**

This poll of 509 likely Florida U.S. Congressional District 13 general election voters was conducted on October 26-27, 2022. This poll used the registered voter lists supplied by the state of Florida as of October 4, 2022. The sample of voters that were contacted included random samples of registered voters within the boundaries of Florida U.S. Congressional District 13.

The issues surveyed included questions related to the November general election in Florida U.S. Congressional District 13.

**Methodology:**

The poll was conducted through a combination of an automated phone call polling system and a manual P2P SMS polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the active voter population for Florida U.S. Congressional District 13. The weighting demographics used were: political party, race, age and gender.

Voters who had stated that they were not likely to vote in the November general election were excluded from the results.

The share of respondents by contact method:    Phone call = 71%    SMS texting = 29%

The scientific results shown for the questions below have a sample size of 509 and a 4.3% Margin of Error at a 95% confidence level.
