Subject: Florida Statewide survey conducted for FloridaPolitics.com

Date: June 17, 2022

Executive Summary:

This poll of 1,007 likely Florida Democratic party voters was conducted from June 16 to 17, 2022. This poll used the registered voter lists supplied by the state of Florida as of April 12, 2022. The sample of voters that were contacted included random samples of registered voters within the boundaries of the state of Florida.

The issues surveyed included questions related to the 2022 Florida statewide primary election.

Methodology:

The poll was conducted through an automated phone call polling system. The results were then weighted to account for proportional differences between the respondents' demographics and the demographics of the active Democratic Party Primary voter population for the state of Florida. The weighting demographics used were: race, age, gender and media market.

Voters that stated they were not planning to vote in the August primary election were excluded from the results below.

The scientific results shown for the questions below have a sample size of 1,007 and a 3.1% Margin of Error at a 95% confidence level.

Respondents' Demographics:

Summary of the demographic breakdown of the Registered voters who responded to this survey:
